Summary

- Dedicated Full Stack Java Developer and AI/LLM Engineer currently pursuing a B.Tech in Computer Science at Sanjivani University. Strong foundation in building scalable web applications using Java, Spring Boot, and MySQL, with hands-on experience designing REST APIs and integrating frontend frameworks. Passionate about leveraging AI and Large Language Models to architect intelligent, data-driven systems, such as chatbot and automated search solutions. Eager to contribute robust software architecture skills and innovative AI solutions to dynamic engineering teams.

Education

- **Sanjivani University** 2024 – 2027
B.Tech in Computer Science and Engineering - 7.62 CGPA *Kopargaon, Maharashtra*
- **K.K.Wagh Polytechnic** 2021 – 2024
Diploma in Computer Technology – 78.40% *Nashik, Maharashtra*
- **Maratha High School** 2020 – 2021
SSC 10th – 90% *Nashik, Maharashtra*

Experience

- **Golden Dream Software Solution** June 2023 – July 2023
Web Development Intern *On-site*
 - Developed responsive web pages using HTML, CSS, and JavaScript.
 - Worked on UI design improvements to enhance user experience.
 - Collaborated with team members to debug and optimize website performance.
 - Gained hands-on experience in front-end development and version control (Git).
- **Acmegrade** July 2024 – Sep 2024
Data Science Intern *Online*
 - Worked on data preprocessing, cleaning, and visualization using Python.
 - Built machine learning models for classification and prediction tasks.
 - Used libraries such as Pandas, NumPy, Matplotlib, and Scikit-learn.
 - Analyzed datasets and generated insights to support decision-making.
- **HCL Tech** May 2025 – July 2025
Full Stack Java Development Intern *Online*
 - Developed full-stack web applications using Java, Spring Boot, and MySQL.
 - Designed REST APIs for CRUD operations and integrated them with frontend.
 - Worked on frontend using Angular, React, and basic JavaScript.
 - Improved application performance and debugging backend issues.
- **AMDOX Technologies** Nov 2025 – Feb 2026
Full Stack Java Development Intern *Online*
 - Built scalable web applications using Spring Boot and RESTful services.
 - Implemented authentication and authorization features.
 - Integrated frontend (Angular/React) with backend APIs.
 - Worked on real-world project development and deployment concepts.

Projects

- **E-Royalty Authority Platform and overload Detection System :**
Java, MYSQL, HTML, JS, CSS, Arduino UNO, Ultrasonic Sensor
 - Integrated digital platform for managing royalty payments, permit approvals, and communication related to sand and stone extraction.
 - Real-time overload detection system using ultrasonic sensors to monitor vehicle loads, preventing overloading and ensuring transparency and sustainable resource management.
- **AI-Powered Medicine Availability and Alternative Finder System:**
Java (Spring Boot), Python, React Js, MYSQL
 - AI-powered digital platform for searching medicine availability in nearby pharmacies and connecting users with

pharmacies and administrators.

- Smart medicine search system providing real-time stock availability, price comparison, alternative medicine suggestions, along with emergency booking and home delivery support for quick access to medicines.

- **Ecommerce Online Marketplace:**

Java(SpringBoot), Angular, MYSQL

- Web-based marketplace platform that allows users to browse, buy, and list products easily.
- Admin management, secure transactions, and order tracking system to ensure a smooth experience for both buyers and sellers.

Technical Skills

- **Programming Languages:** Java, C/C++, JavaScript, Basic Python.
- **Developer Tools:** VS Code, Eclipse, Github, Jupyter Notebook, Postman, Vercel.
- **Technologies/Frameworks:** Spring Boot, ReactJS, Node.js, Machine Learning.
- **AI and LLM Technologies:** Large Language Models, Agentic AI, OpenAI API, Chatbot, Prompt Engineering.
- **Database:** MYSQL, PostgreSQL (Supabase).
- **Soft Skills:** Problem Solving, Quick Learning, Team Management, Leadership.
- **Languages:** English, Hindi, German.

Courses & Certifications

- **National Chung cheng University, Taiwan:** 3rd Place in Spectra Vision International Workshop - 2024
- **Oracle Academy:** Java Fundamentals - 2024
- **NPTEL:** Introduction to Large Language Models - 2025
- **Nasscom:** Exploratory data analysis, Generative AI Fluency - 2025

Participation

- **Smart India Hackathon 2025** – Project: AI Based Smart Allocation Engine for PM Internship Scheme.
- **GDG Hackathon 2025** – Participating Hackathon in MET College Nashik.
- **DIPEX Hackathon 2026** – Project: Flood Prediction and Rescue Coordination App.

I hereby declare that the details mentioned above are true and correct to the best of my knowledge.
